

# PWAACS Map of Waters

## GEDGES LAKES

Address:

Gedges Lakes

Gedges Hill

Matfield/Paddock Wood

TN12 7EA

Maps:

## General Info:

This fishery is owned by the club and as such is subject to Working Parties on Sundays and Wednesdays throughout the year, there are planned ones that members should try and attend to give back to the club in some labour to help maintain the grounds.

There is two Car Parks (Entrances) at this venue, one is the main car park with two access paths (Sloped) down to the fishery, and one is a Disabled/Key Locked Car Park (At a cost, see website/membership renewal for latest cost) which is at the same level as most of the lakes to provide "easier" access.

There are paths throughout the fishery and reasonably easy walks.

This is probably this is the most used Fishery within the club, and as such can fill up but with 5+ lakes/ponds on the complex it is very rare there are no swims available.

If you need to find a committee member this is the lake you will most likely find them walking around during the day.

## Fish:

Mixed Coarse Fishery.

- Lake 1 - Runs Water with all silver species, and Carp to mid-20's (Most 4-10lb range).
- Lake 2 - More of a silvers/tench lake, with a small number of Carp to mid-teens.
- Lake 3 - This has a Pond linked to it, and quality Silvers/ Carp to mid-20's (not as easy as lake 1).
- Lake 4 - This has Larger high-20's early-30's (fewer carp), a good head of silvers, not a runs water.
- Lake 5 - More of a silver's lake (with a few carp), has platforms and lilies.

## Rules:

See [www.PWAACS.com](http://www.PWAACS.com) website for all rules associated with this fishery.

## HUNTON (River Beult)

Address:

River BEULT

Vicarage Road/West Street

ME15 0SA

Maps:

### General Info:

The entrance to the fishery is on a sharp bend (be careful entering and leaving), and if coming from the Yalding village end you will go passed a Mill House with pond, then alongside a cut of the Beult, you will see a black/white chevron (sharp bend sign) and right on that bend there is an entrance with corrugated iron cladding with a combination lock on the right hand side (There is enough off road parking for 1 car at the entrance).

There is another club that has the rights to the far bank, although it is not often fished, so this is probably the quietest venue the club owns to fish.

ACCESS within the fishery – Be careful this is a remote location, you are driving on dirt paths, there is a bridge halfway up to the river if you drive all the the up to the main river, it is advisable (and the gate to drive up to the river might get locked when it gets muddy to avoid people getting stuck) to not attempt to drive up to the main river without checking on foot first the state of the ground. The Car park for the back cut is the end of the Open area after you go through the main gate before it narrows and goes through a gate.

### Fish:

Mixed River Fishery

This is not an easy water to fish, but has its rewards with quality fish if you can find them. The main river is slow moving, 20-25m wide, and deep to very deep in places (drops off to 6ft plus in the margins in some swims). It is a river and as such fish swim up and down it and are not contained in just our stretch, people have caught large eels, carp, chub tench bream, pike, roach & rudd up in the main river. The backwater only has about 4 or 5 pegs, and not very wide but early morning, late evening can provide a reward or two for anyone that wants to try something different.

### Rules:

See [www.PWAACS.com](http://www.PWAACS.com) website for all rules associated with this fishery.

Phone: 01342 822212, E-mail: [bren.carp@hotmail.co.uk](mailto:bren.carp@hotmail.co.uk)

### Maps:

### General:

There are two car parks at this “leased” Fishery, one is the main **Yacht Club car park** and used if you are fishing the “South Bank” which is the bottom bank on the map, the **blue** marked bank is “road/tarmac” and reasonably flat, beyond that the **red** mark part of the bank is mud/dirt road and other than 3 carp pegs on the first point, the “pegs” aren’t obvious and you may need to go in the water. The “North Bank” which is the top bank on the map all **red**, the car park for this is that thin **orange** line below the dam right next to the water treatment works, now from this car park you walk through the gate to the water works car park to the far side, then up the hill (this is quite steep so travel light) this take you up the back side of the dam to the north side, at the top of the hill you turn left into an unmown field and walk through the field down to the reservoir ( Suggestion is to visit before going fishing ).

### Fish:

Mixed Reservoir Fishery – Lake and River species.

### Rules:

All round fishing - 7:30 until dusk.

Members allowed half a mile of the North & South bank from the dam wall.

All members must announce themselves on arrival with their membership card (Phone Brendan).
